About

Develop REST APIs

<https://martinfowler.com/articles/microservice-testing>

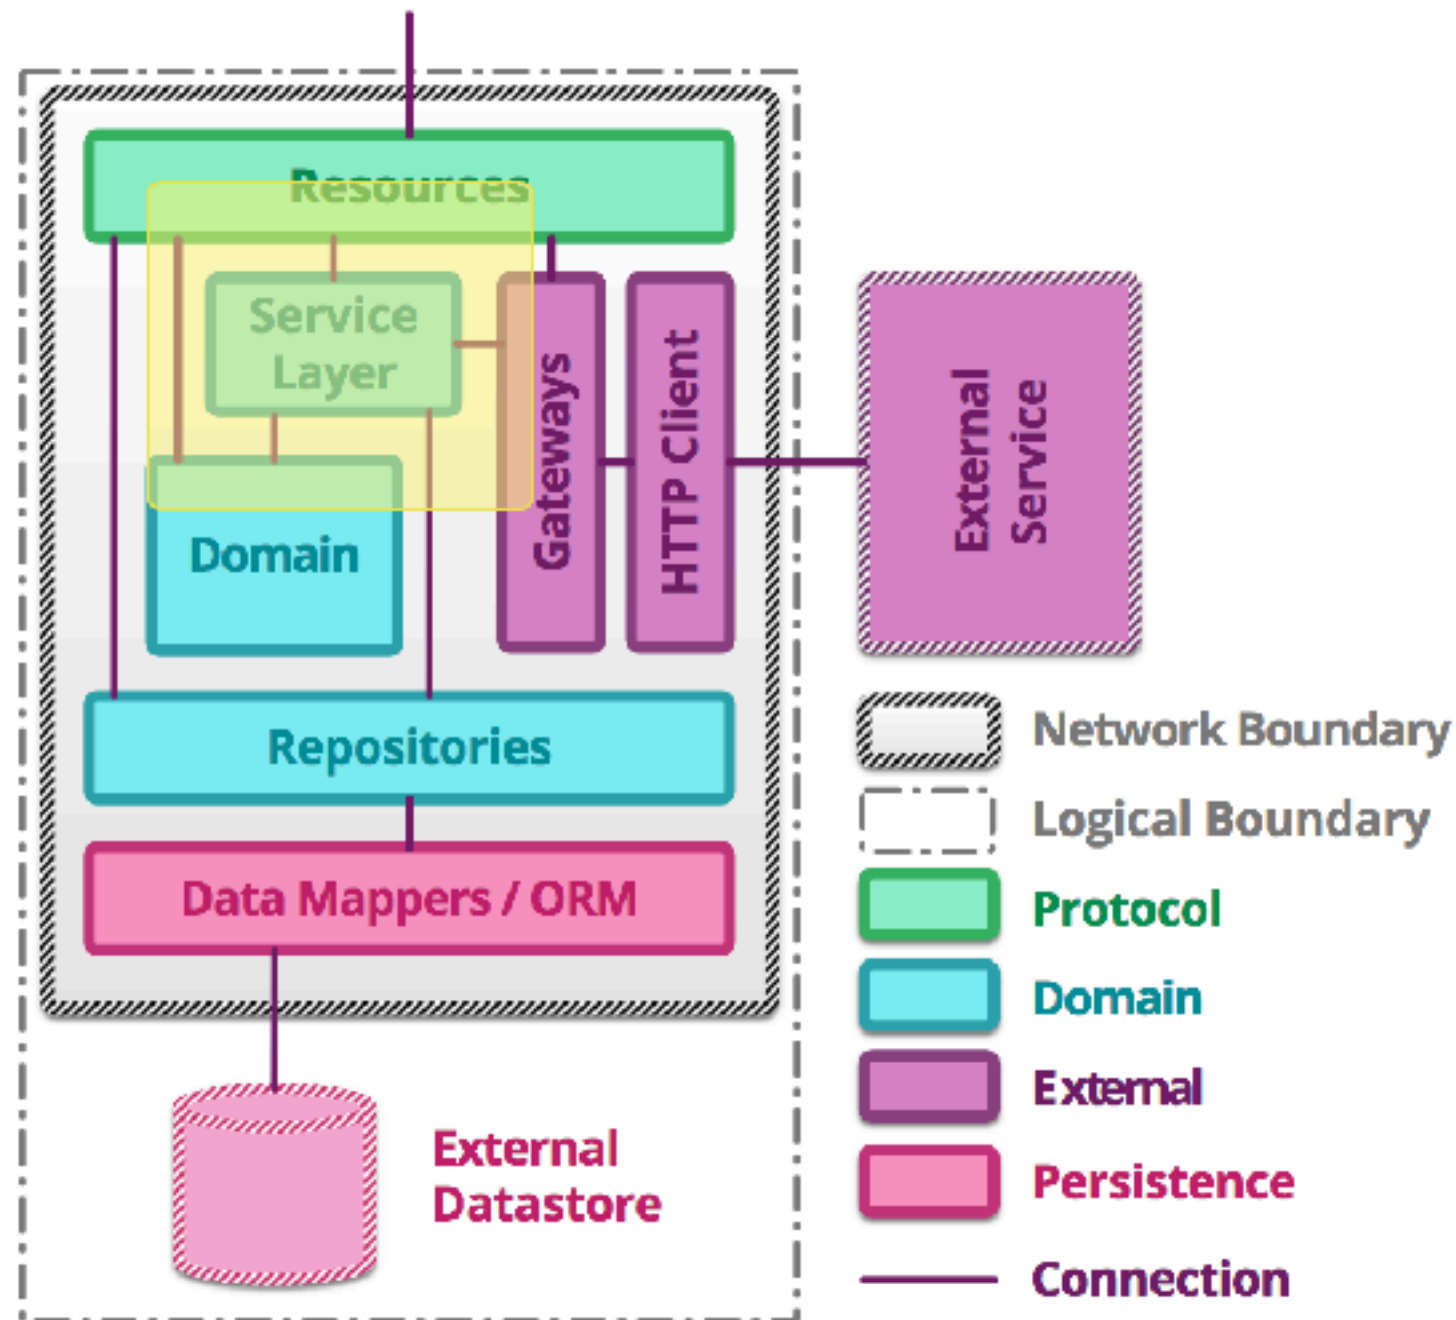

Resources Testing

<https://martinfowler.com/articles/microservice-testing>

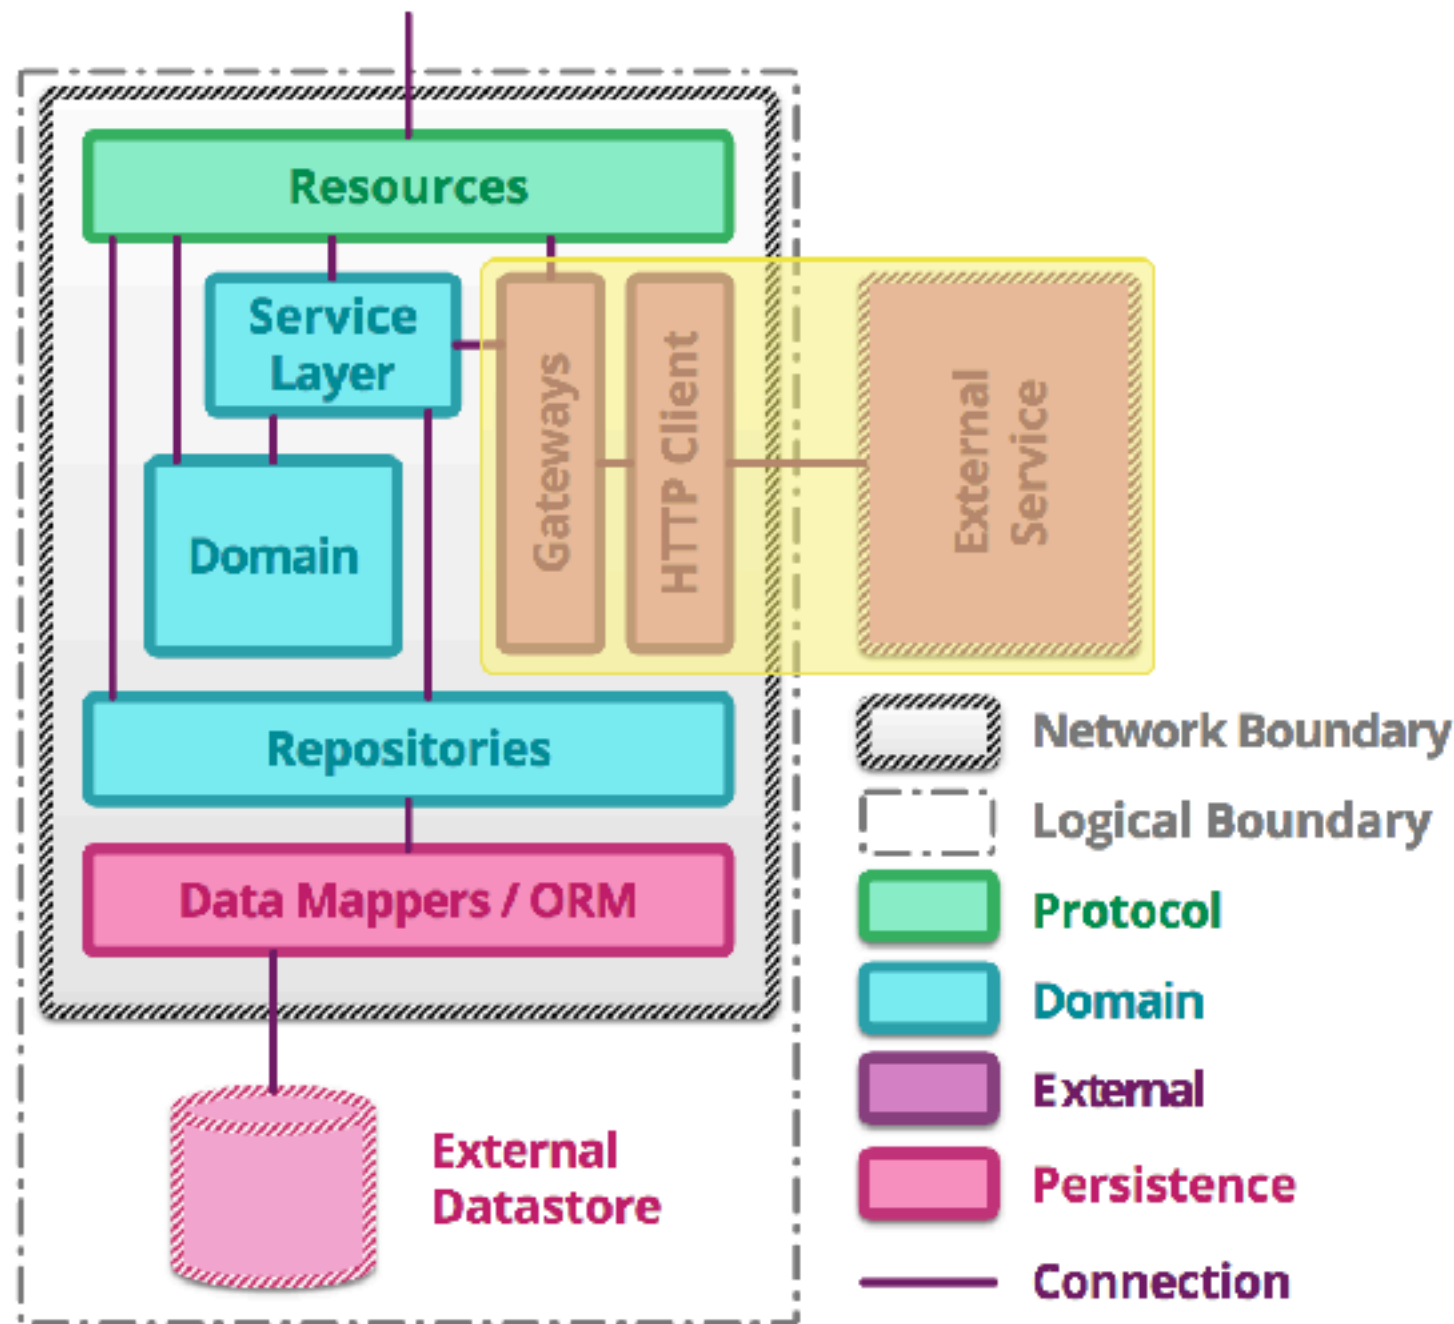

Services Testing

<https://martinfowler.com/articles/microservice-testing>

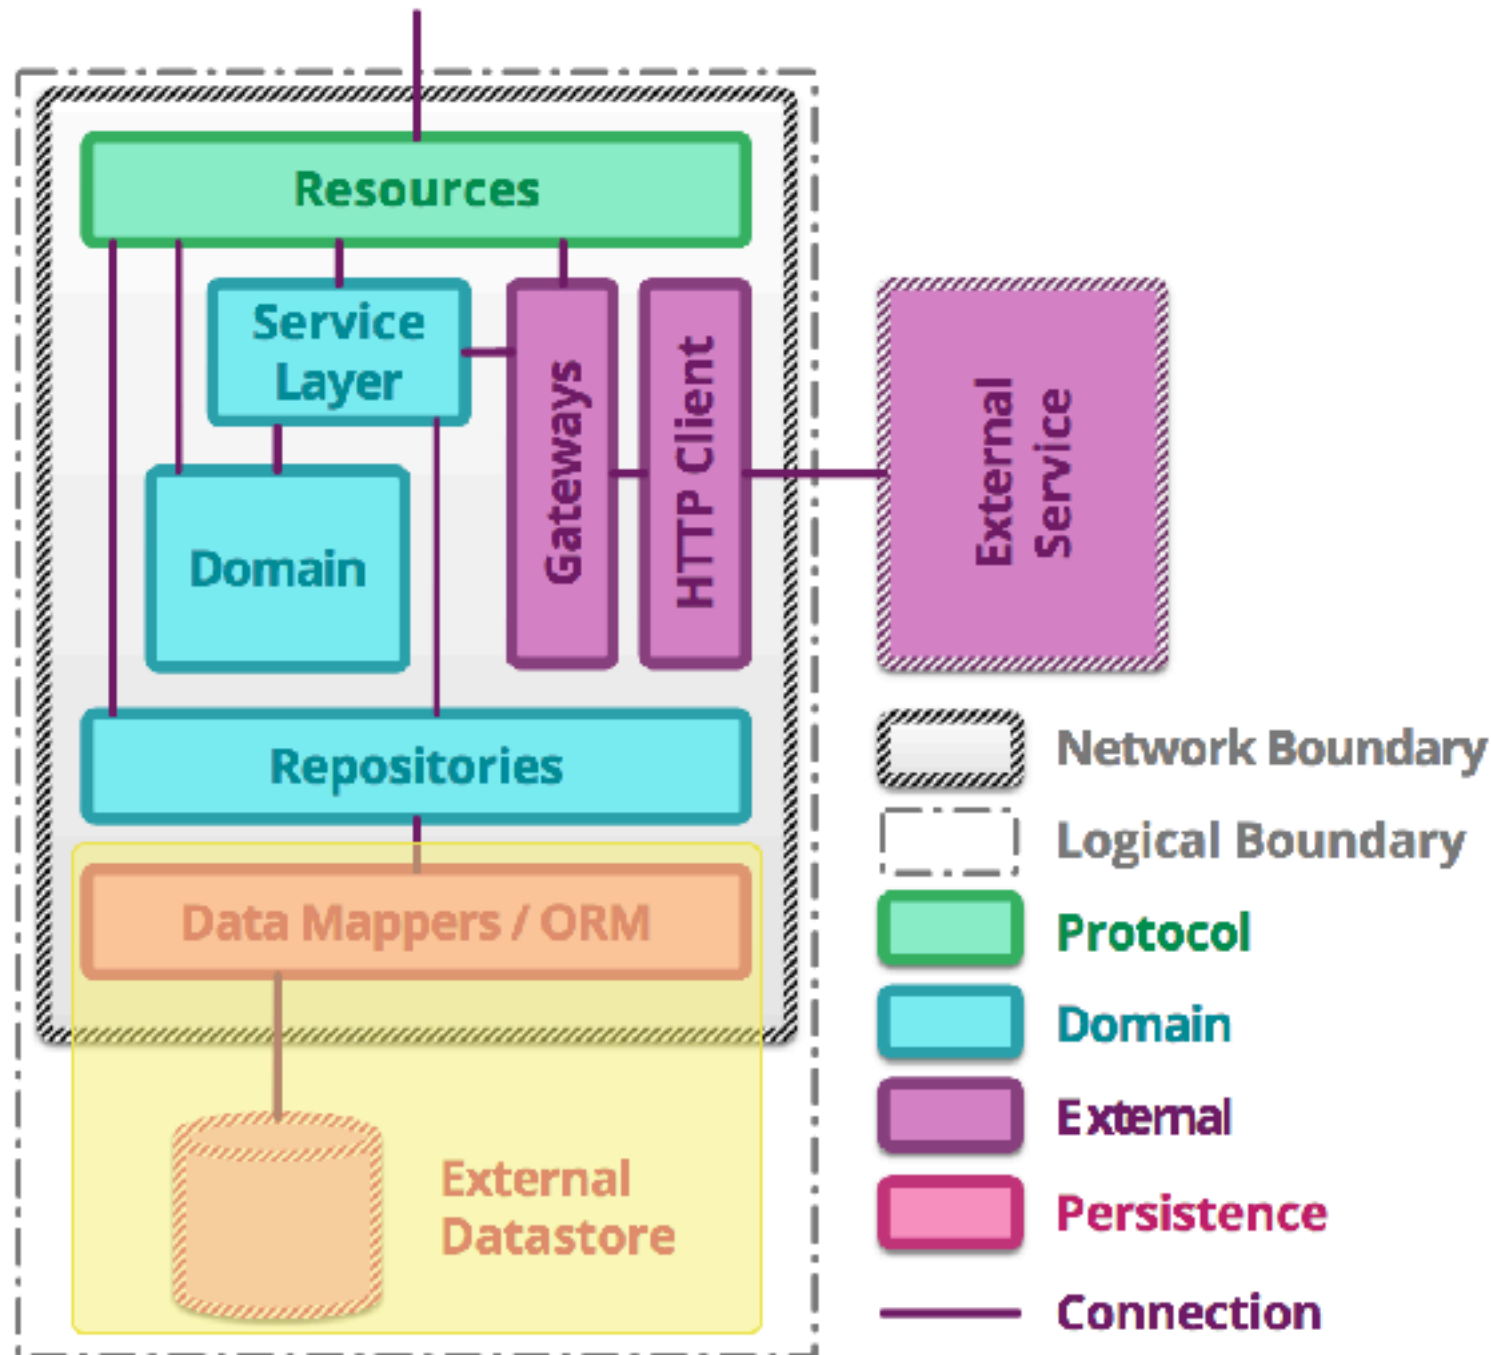

Integration Testing

<https://martinfowler.com/articles/microservice-testing>

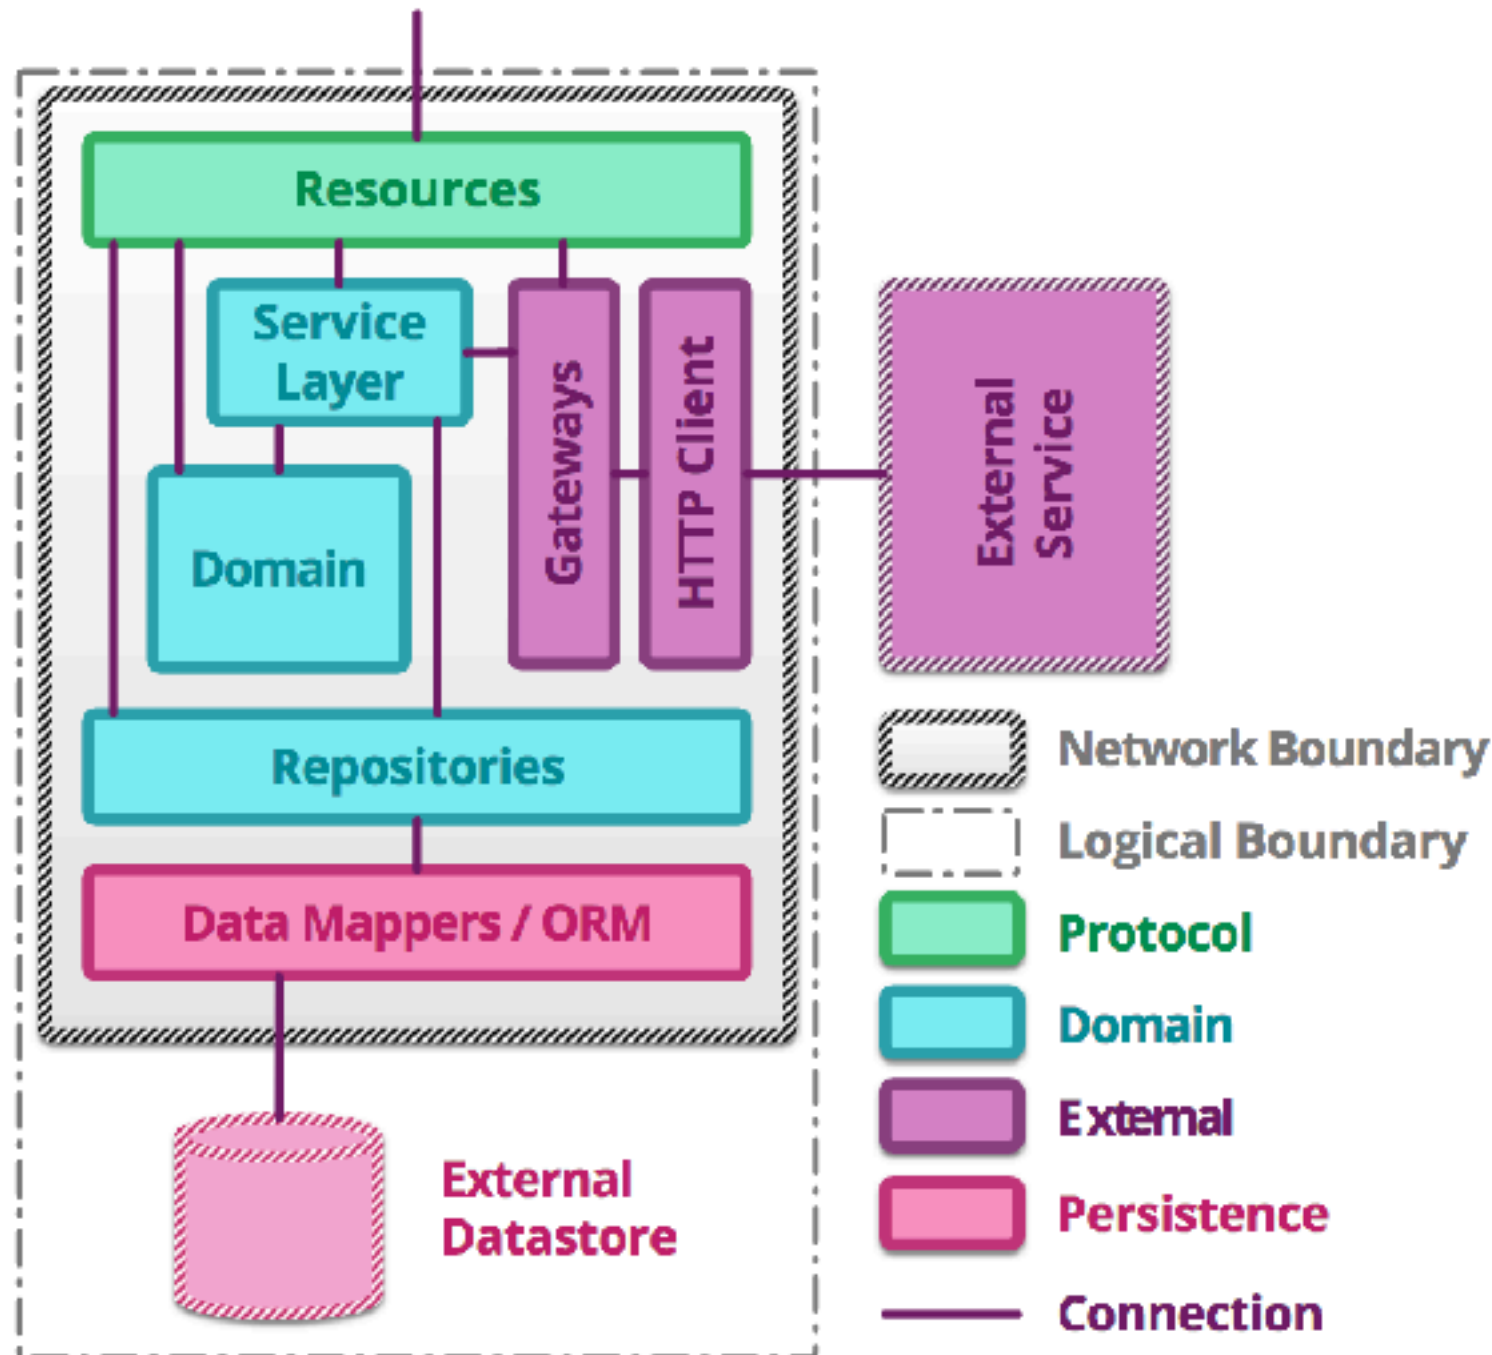

Integration Testing

<https://martinfowler.com/articles/microservice-testing>

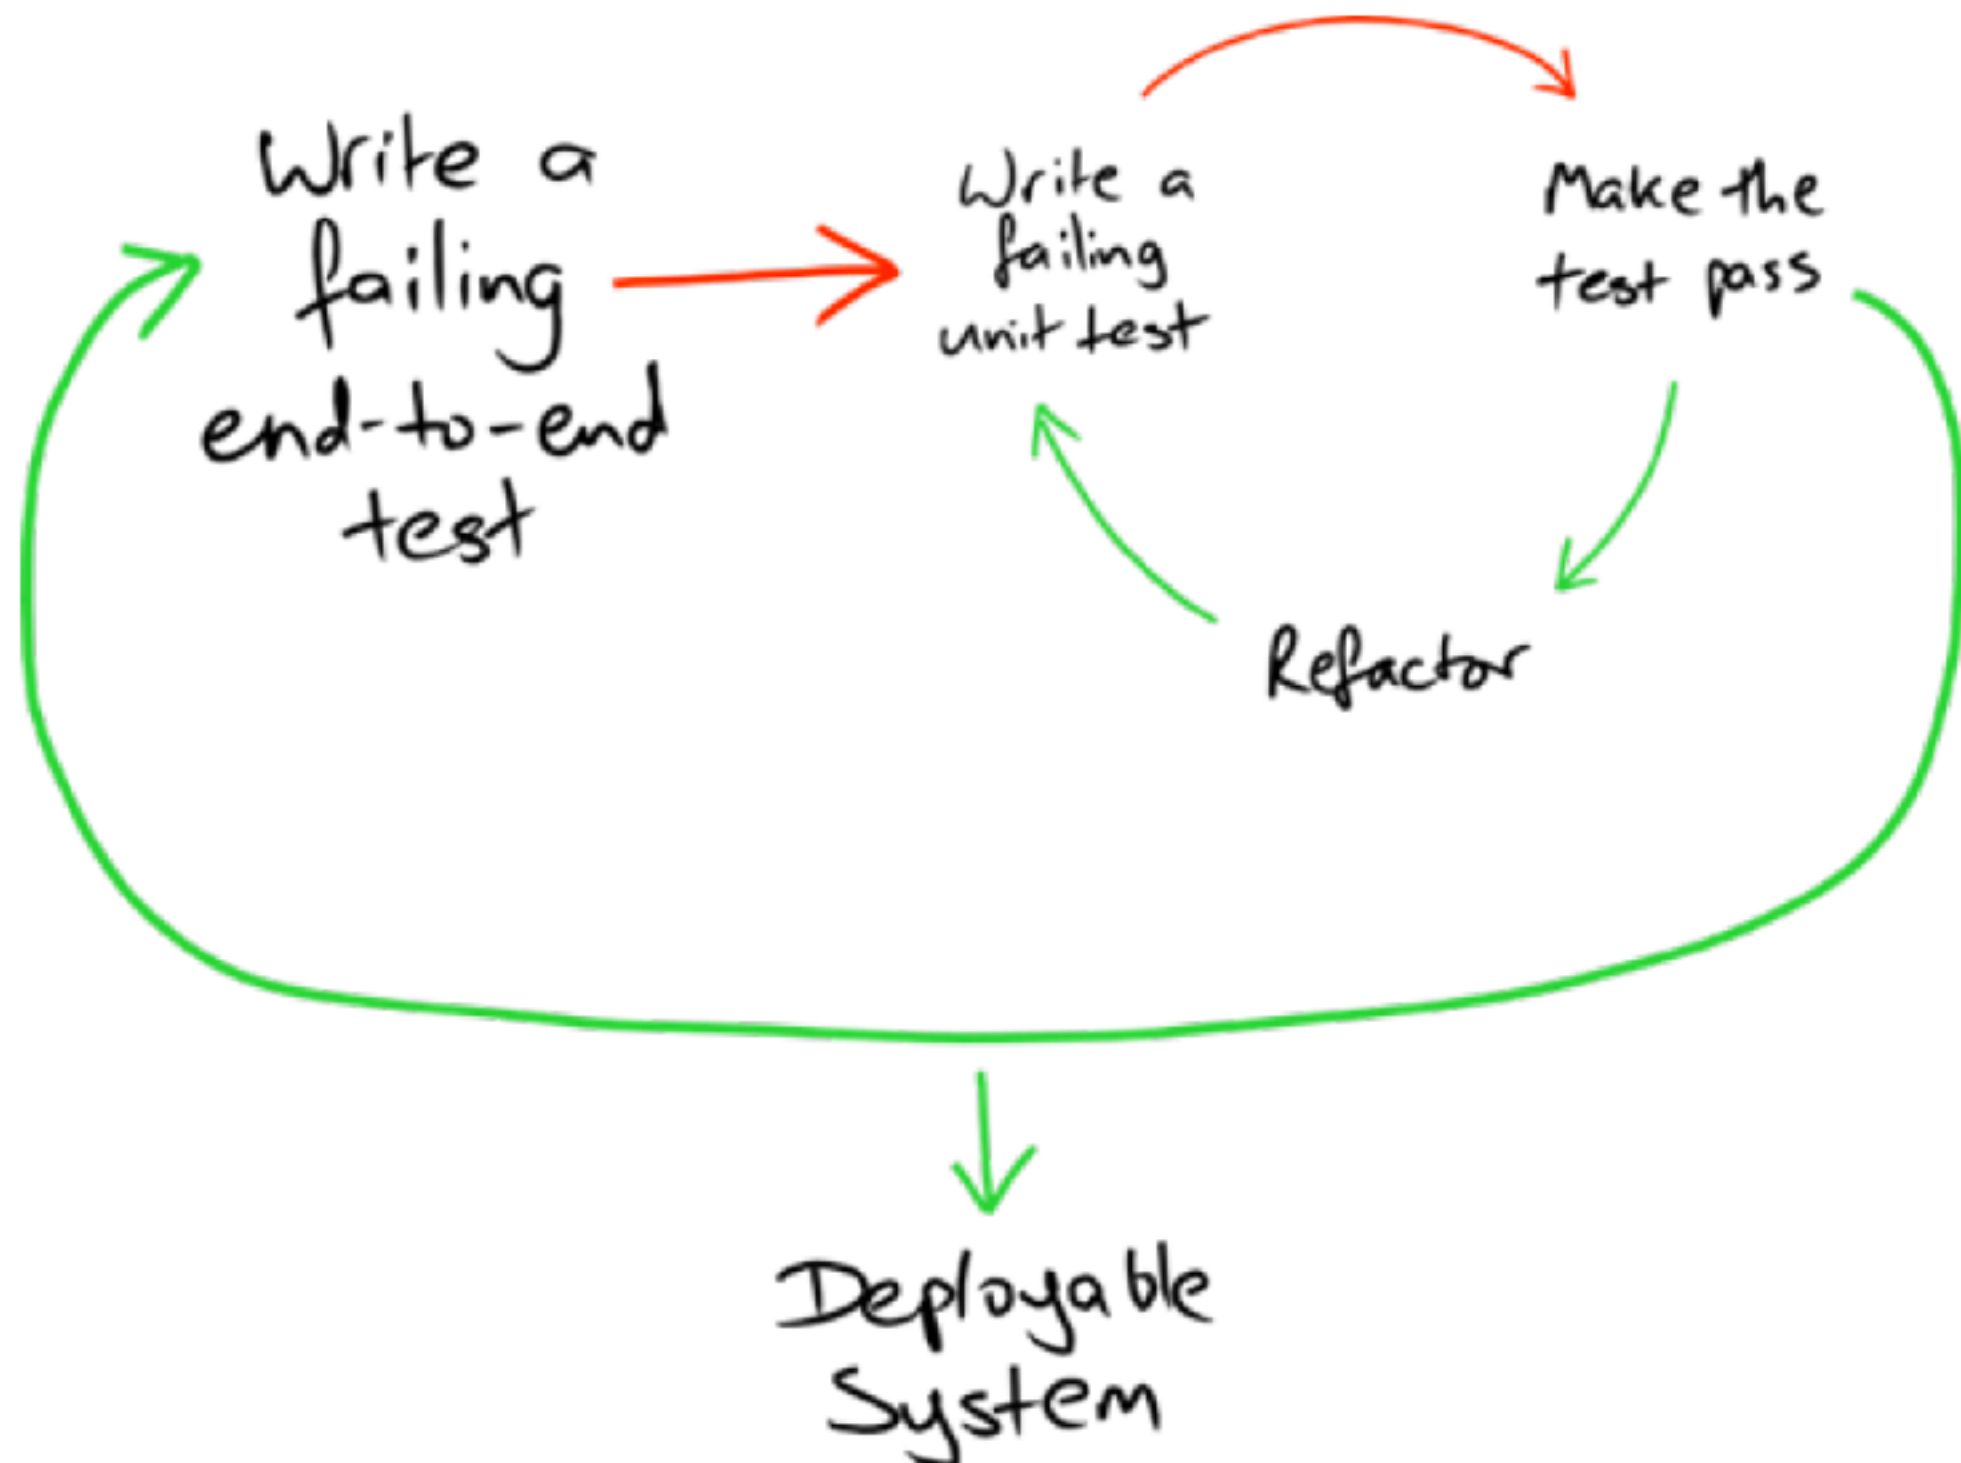

Acceptance Testing

<https://martinfowler.com/articles/microservice-testing>

Step to develop with Testing

Step to develop with Testing

1. Resource Testing
2. Service Testing
3. Integration Testing
4. Acceptance Testing

Rules

Write a test

Run the test

Write the code

Run the test

Refactor

Repeat

Write a test ?

Resource	Path	Method	Description
parking lot	/parking_lot/available	GET	List of available parking lot
parking lot	/parking_lot/available/:level	GET	List of available parking lot by level
parking lot	/parking_lot/booking/:position	PUT	Booking parking lot by position

Resource Testing

Resource Testing

Postman

Silk

REST assured

Testing with Postman

<https://www.getpostman.com/>

Testing with Silk

<https://github.com/matryer/silk>

Markdown based document driven
Easy to read and execute

Install Silk

```
$go get github.com/matryer/silk
```

Run Silk

```
$silk -silk.url=<server> <testfiles>
```

Testing with REST-assured

<http://rest-assured.io/>

Java DSL for easy testing of REST service

Build on top **HTTP** builder

Validate and verify the response

Service Testing

Integration Testing

Acceptance Testing
